# Kobra Document Destruction Equipment

Reduce your energy consumption with "Energy Smart"

Kobra S-50  
Kobra S-30  
Compact and powerful, these entry level models offer the same degree of reliability and performance as more powerful larger Kobra models.

The Kobra +2 and +3 models offer maximum versatility and performance. With two separate sets of cutting blades designed specifically for shredding paper and digital media, you will have total information security at your fingertips. Both series come with transparent top covers and see through waste bin window. Carbon hardened steel blades and continuous duty motors guarantee many years of trouble free and reliable service. The Kobra exclusive and patented "Throw and Shred" feature on the +3 makes the +3 as close as you can get to a standard waste basket with security of a shredder. Just crumple the paper and throw it in. Close the cover and let +3 take care of everything or if you would like use the standard shredder throat. CD's, paper, credit cards, +2 and +3 do it all with ease.

Continuous duty drive motors, large capacity waste bins and large carbon hardened steel blades make the Kobra +1 models unique and unmatched in the personal shredder market.

Kobra 240 S52  
Kobra 240 C2  
Kobra 240 C4

Kobra 240 S54 / S54 Turbo  
Kobra 240 S55 / S55 Turbo  
Kobra 240 C2 Turbo  
Kobra 240 C4 Turbo

Kobra 240 series with 11 different models to choose from capable of handling the most demanding office shredding applications. With four "Turbo" model, you can put an end to messy clean ups in case of an accidental jam. All 240 models are equipped with "Energy Smart", all steel gears and chain drive, all steel mechanical components and carbon hardened cutting knives. The 240 series, smart and powerful in a beautiful and space saving package.

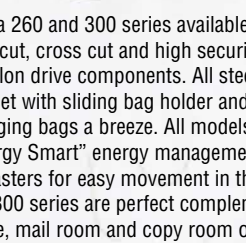

Kobra 260 S2  
Kobra 260 S4  
Kobra 260 S5  
Kobra 260 C2  
Kobra 260 C4

Kobra top shelves designed to provide perfect ergonomics and function. Available for the 260, 300, 390 and standard on the 400 series.

Kobra 300 S54  
Kobra 300 S55  
Kobra 300 C2  
Kobra 300 CC4

Kobra 260 and 300 series available in 14 variations in strip cut, cross cut and high security formats. No plastic or nylon drive components. All steel, 21 gallon holding cabinet with sliding bag holder and bag full signal makes changing bags a breeze. All models equipped with "Energy Smart" energy management system. Mounted on casters for easy movement in the office area. The 260 and 300 series are perfect complements to your work space, mail room and copy room or wherever you need reliable and powerful document security.

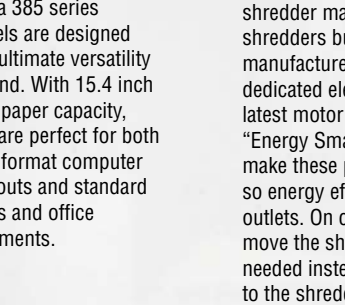

Kobra 385 S4  
Kobra 385 S54  
Kobra 385 S55  
Kobra 385 C2  
Kobra 385 CC4

Kobra 385 series models are designed with ultimate versatility in mind. With 15.4 inch wide paper capacity, they are perfect for both wide format computer printouts and standard forms and office documents.

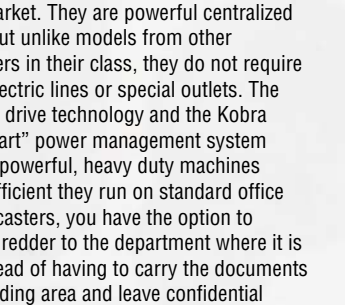

Kobra 390 S5  
Kobra 390 C4

Kobra 390 and 400 series are unique in today's shredder market. They are powerful centralized shredders but unlike models from other manufacturers in their class, they do not require dedicated electric lines or special outlets. The latest motor drive technology and the Kobra "Energy Smart" power management system make these powerful, heavy duty machines so energy efficient they run on standard office outlets. On casters, you have the option to move the shredder to the department where it is needed instead of having to carry the documents to the shredding area and leave confidential documents exposed.

Kobra 400 S5  
Kobra 400 C2  
Kobra 400 C4

The Kobra 400 WB is equipped with an automatic feeder for crumpled paper from office waste baskets.

Kobra Cyclone is the ultimate industrial shredder. Equipped with a turbine driven shredding chamber, the Cyclone can handle destruction of paper, aluminum, plastic, pill bottles, CD's, DVD's.....even top secret NSA 02-01 applications. The Cyclone does not require oiling. Just drop and walk.

\*Special Order Models

"TURBO BOOST" an exclusive Kobra feature on Turbo models increases power by 30% to feed the paper through and clear jams with ease.

Energy Smart will manage your shredder's power consumption to conserve power, protect the environment and reduce your energy costs.

"THROW AND SHRED" A Kobra exclusive standard feature on model +3 CC4.

SUPER POTENTIAL POWER UNIT Heavy Duty chain and steel gear drive systems.

KOBRA "Kobra" and "Energy Smart" are registered trademarks

"Kobra" products are tested and approved by UL safety laboratories.

All Kobra products are manufactured in Milan, Italy and meet or exceed the strictest European and international industry standards governing not only the quality of our products and materials but also methods of manufacturing and environmental concerns.

Specifications are subject to change without notice.

# Kobra HS

KOBRA "AUTOMATIC OILER"

### KOBRA HS Level 5 and Level 6 High Security shredders

All Kobra high security models meet the NSA standards for destruction of secret and top secret documents. The optical media models meet NSA standard 04-02. Kobra high security shredders are manufactured based on floating head technology. This precise and innovative manufacturing method allows us to build our cutting knives by assembling individual cutting blades on a main shaft. This method not only gives us flexibility to manufacture the blades from the toughest plates of steel available today but also makes servicing the shredder in case of accidental damage simple and practical and reduces repair expense and down time. The standard manual emergency drive on the model 260 HS-2 allows continuous operation even during power loss situations.

### KOBRA HS Auto-Oiler

Kobra automatic oiling systems standard on all Kobra 400 series high security models and optional on the 260 and 300 series is the best way to guarantee your shredder will continue to run most efficiently and is always ready to handle your toughest document destruction projects.

Note: Capacity varies based on supply power, weight, quality and grain of paper, operating temperature and blade lubrication.
